We Have A VERY Big Problem –

- Over 50% of adults don’t have nor understand the importance of having a current financial, estate & gift plan to protect themselves and their family’s assets.
- The Majority of those reaching age 70 are nearly out of money.
- Excessive debt is destroying individuals, families and businesses. Student loan debt exceeds $1.3 trillion and is the 2nd largest class of consumer debt after mortgages.
- Members of the class of 2020 graduated with an AVERAGE of $35,000+ in student loan debt. Those with graduate degrees are significantly greater.
- People are making critical life decisions based on information gained from non-experts and fragmented out-of-date sources.
- This creates a HUGE social challenge for families and friends, employers, nonprofits, and the ultimate safety-net the government.
- We have entered into the greatest wealth transfer in history, an estimated $59 trillion - divided among heirs, charities, estate taxes and estate closing costs - will be transferred from 116 million American households from 2007 to 2061.
- Without some forward planning / effort a significant amount of these assets will be wasted.
- Remaining assets may not go to the right person(s) / organization(s), and not used as intended.
How does this alarming consumer financial data affect you?

- The class of 2020 average student loan debt is $35,397
- Number of Student Loan Borrowers in default: 3 million+
- The number of Americans over 65 is 50+ million
- The percentage of Americans over 65 that are dependent on Social Security is 90%
- The amount the average retired couple receives from Social Security in 2020 is $30,372
- For persons reaching 65, their average life expectancy is 19+ years
- Americans that don’t have an estate & gift plan is 120 million+

Most Americans who reach age 70 are almost out of money!!!
