News from the Assistant Vice Provost, Emeriti Center

by Janette Brown, Assistant Vice Provost, USC Emeriti Center

We are very excited about our new USC administration. In March, we met President Folt in a private meeting and in September had a special meeting with Senior Vice President of Human Resources, Felicia Washington. Both leaders are visionary, people-focused, and willing to listen. We've seen a positive culture shift already and hope that the USC retiree community will continue their support and connection with our beloved university.

The inauguration of President Folt included our retired faculty marching in their regalia along with our retired staff sitting up front and center in reserved seating. The processional march included staff, faculty, students, alumni, community leaders and local school children. We are heartened by the warmth and inclusiveness of this new USC era.

I invite you to join me as we create new intergenerational, interdisciplinary, and multi-cultural programs of benefit to all members of the Trojan Family, and ask that you contact me directly with your ideas and willingness to volunteer your time and talents to benefit all.

Warm regards and happy Fall,

Janette

ABOUT THE USC EMERITI CENTER

Since its founding in 1978, the USC Emeriti Center has served the university's retirees and pre-retirees in living healthy and purposeful lives by providing essential information, resources, services, advocacy, privileges, and support. Part of the Office of the Provost, the Emeriti Center offers most of its services and programs free of charge. Certain special privileges, such as the Gold Card, are available to retirees age 55 or older with at least 10 years of benefits-eligible employment at the university.

The Center is home to the USC Emeriti College, which operates a speakers' bureau, the Noboru Inamoto Lectureship, offers enrichment classes and research seed grants, and fosters multidisciplinary and multigenerational opportunities for lifelong learning.

The Emeriti Center also provides support for USC's Retired Faculty Association (RFA) and the Staff Retirement Association (SRA), and encourages all members of the Trojan Family to participate in its many programs.

In addition, the Emeriti Center houses the Association of Retirement Organizations in Higher Education, an international nonprofit that shares resources, best practices, and research among North American universities. The Emeriti Center helped found the organization, which began through professional meetings initiated in 1985 by former Emeriti Center Executive Director Paul Hadley.
